Re: Petition of Bally Gaming, Inc. for Approval of the Atlantic City Cash Connection Multi-Casino Progressive Slot System

PRN 0731202

Dear Mr. DiGiacomo:

Bally Gaming, Inc, d/b/a Bally Technologies ("Bally"), has petitioned the Division of Gaming Enforcement ("Division") for approval to operate a multi-casino progressive slot system known as the Atlantic City Cash Connection Multi-Casino Progressive Slot System ("Cash Connection"). Bally also seeks approval for the proposed slot system agreement between it and casinos which would host the system's games.

Bally currently supplies progressive slot machines as well as technical support for two multi-casino slot systems operated in Atlantic City casinos. These systems are operated by trusts formed by Atlantic City casinos and not by Bally. The Cash Connection system will be the first such system operated by Bally itself as permitted by N.J.S.A. 5:12-104a(9). The Division has reviewed the proposed agreement between Bally and the casinos which would install the multi-casino progressive machines and finds such agreement to be acceptable. Bally's has also represented that it will comply with all statutory and regulatory requirements in operating the Cash Connection system. Bally will operate the system from

New Jersey Is An Equal Opportunity Employer • Printed on Recycled Paper and Recyclable

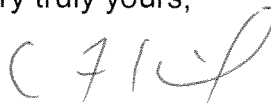

its facility in Egg Harbor Township, Atlantic County. This complies with the requirement for multi-casino slot systems set forth in N.J.S.A. 5:12-100b.

On the basis of the foregoing, the Division approves the relief requested by the petition; approves the proposed form of slot system agreement, and authorizes Bally to operate the Cash Connection system. Such approval is subject to the following conditions:

1. Bally may not commence operation of gaming on the system until it submits and receives approval from the Division for internal controls relating to security and surveillance;
2. Bally must create and file with the Division all other required internal controls, including without limitation, controls for staffing, employee credentials, accounting controls, procedures for paying winners, and procedures for adjusting rates of progression;
3. Bally must schedule an inspection of its monitor room with the Division's Regulatory Enforcement Bureau and cannot commence gaming operations until cleared to do so by that Bureau.

Thank you for your attention to this matter.

Very truly yours,

Charles F. Kimmel
Deputy Attorney General
